

“Phytron-Elektronik GmbH” is now “**Phytron GmbH**”

Since 1st of August 2013 the corporate name of our operative business branch is „Phytron GmbH“. Ongoing contracts are automatically demised to „Phytron GmbH“.

Why don't we keep the addition „-Elektronik“?

Phytron integrates **Physics & Electronics** – that is our very nature. Our product portfolio includes not only amplifiers or controllers but also high precision positioning motors, e.g. for the use in gas mixers, manipulators or satellite optics. For our customers we develop, design and manufacture also customised automation solutions for a wide variety of applications: starting from agricultural machines up to particle accelerators.

For that reason we don't need the restricting addition “-Elektronik” any more.

What changes for our partners?

For our future collaboration please notice the new corporate details:

Phytron GmbH

Industriestraße 12
D - 82194 Gröbenzell
Managing Director: Birgit Hartmann

- **new Trade Register Entry:** Reg.-Gericht München – **HRB 205987**
